

THE PRODUCTS WE USE

KATHERINE DANIELS COSMETICS

Katherine Daniels is a British skincare range for the face, developed specifically for British salons with a totally new concept. It treats the most common skin types and conditions, taking into consideration client lifestyle, environment and our climate.

LA SULTANE DE SABA

La Sultane de Saba's very concept is based on the ancient and precious beauty rituals of oriental women which are passed down the generations from mother to daughter.

Through its authentic, original products and its body treatments, available in an array of fragrances, La Sultane de Saba's aim is to encourage you to dream, allow you to travel, discovering far-off horizons, as you head towards the lands of the sun, where body and spirit return to the very essence of relaxation and wellbeing.

SKINBASE MICRODERMABRASION

Microdermabrasion is a system of intense exfoliation and resurfacing using ultra fine crystals that rejuvenate the skin. The crystals work as a gentle abrasive on the skin to remove dead skin cells layer by layer. The irregular shape of the crystals helps to work on hard to reach areas without any damage to the skin.

The vacuum action of the machine stimulates the circulation and promotes increased blood flow to the area. The production of collagen and elastin is stimulated, which results in a firmer, more youthful looking skin. Great for treating: ageing skin, stretch marks, acne, acne scars, pigmentation, blemishes, dull, dry skin, fine lines, wrinkles, uneven skin tone, blackheads and open pores.

CACI - NON SURGICAL

A complete Non-Surgical facelift solution. CACI redefines facial muscles, reduces fine lines and wrinkles and tones sagging muscles. It also treats acne, scarring, blemishes, sun damaged, dry, dehydrated and problematic skin.
